**To:** Mr. Hire Manager

Telnet

Tunisia, 30/12/2024

**Subject:** Junior Web Developer

Dear Hiring Manager,

I am a recent graduate of ESPRIT with a strong foundation in web development and significant hands-on experience through numerous freelance projects. Over the past 6 years, I have successfully delivered solutions using modern technologies such as Java, JavaEE, Spring Framework, REST APIs, Microservices, Docker, and Kubernetes.

During my freelancing journey, I honed my skills in full-stack development, working closely with clients to build scalable, user-friendly web applications. Highlights include:

- Developing microservice-based systems.
- Creating intuitive front-end interfaces using React.js, ensuring responsive and accessible designs.
- Optimizing backend systems to handle high traffic and ensure seamless performance.

I am passionate about clean code, collaborative teamwork, and staying up-to-date with industry trends. My blend of academic knowledge and professional experience makes me confident in tackling the challenges of a junior web developer role.

I would welcome the opportunity to contribute to your team and bring value to **Telnet**. Please find my CV attached, and I'm available for an interview at your convenience.

Thank you for considering my application.

Kind regards

Almia Ghassen
